Email – [maureenshearlaw@gmail.com](mailto:maureenshearlaw@gmail.com)

Avoid costly mistakes by learning all the tricks and tips in this thorough and informative foundation taster course offering an enjoyable and good value experience within a creative and stimulating environment.

### **Class Description (no more than 3 students)**

With a “hands on” focus, each student will work with many different materials to produce 4 coasters and a dish. Or 2 coasters and 4 fridge magnets plus a dish.

Whichever they prefer to make, using Bullseye glass CoE90 and glass accessories.

The aim will be to give you the confidence to produce reliable results in the kiln. During the one day we will cover the following:-

- . **Confidence with glass cutting**
- . **What do you need if you want to set up a studio?**
- . **Health and safety in the studio**
- . **What is compatible glass?**
- . **Glass and heat – what happens in the kiln?**
- . **Working with accessory glass and inclusions**
- . **A taste of using metal inclusions**
- . **Beyond flat pieces – an overview of slumping**

This class is an invaluable source of information and advice.
